DOUGLAS THE WORLD. \$3.50 SHOES FOR MEN

Do you wear W.L. Douglas shoes? If not, I believe can give you good and sufficient reasons why

it will pay you to wear them. I give the wearer the benefit of my thorough and practical knowledge of shoemaking, which has extended over fifty years.

I give the wearer the benefit of my exclusive method of tanning the bottom soles, which makes them more flexible and gives longer wear than any other sole leather produced in this country. As I am the largest manufacturer of men's fine Hand-Sewed Process shoes in the world, it is necessary for me to purchase leather and other materials in enormous quantities; the benefit of the very low prices I obtain I give to the wearer in superior quality over other makes.

If I could take you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer and are of greater value than any other make.
